francesco.manu.53@gmail.com

EFFECTIVE • BRAVE • TIRELESS
These are most likely the words that best describe me.

A serial entrepreneur active since 2006, with five successful business exits to my name. My ventures have encompassed a diverse array of sectors, including technology, hospitality, construction, the arts, food and beverage, strategic consulting, sports, import-export, music, and entertainment.

My educational background includes eight postgraduate master's degrees, two of which were earned at Columbia University and MIT, where I also had the distinct privilege of presenting my publication, *Matrice Negoziale*.

Having begun programming in HTML at eight years old, I launched my first online business at thirteen. At sixteen, following top placements in several mathematics competitions (1st in Italy, 36th globally), I was granted special dispensation to attend Pure Mathematics lectures as a non-matriculated student.

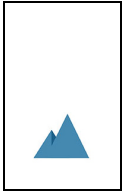

Today, I operate across multidisciplinary professional spheres that include entrepreneurship, statistics, mathematical metaphysics, biomedical engineering, design, negotiation, university instruction, and music production. I am often described as multifaceted and unconventional.

PUBLICATIONS

Matrice negoziale

www.academia.edu/31877702/Titolo_Matrice_negoziale

The negotiation matrix is a operating model for manage a negotiation, It can use for understand the real position that you are.

	<p>Teoria della relatività economica www.academia.edu/22555981/Titolo_Teoria_della_relativit%C3%AO_economica The economic relativity develops when the parameters on which you can count on in order to determine values and develop strategies are no longer stable. Hence I represent the market as the entirety of all possible equilibria. The different position of the surface representing the market and the points forming it are defined through the ISA Model.</p>
	<p>Matrice Organizzativa www.academia.edu/19837171/Matrice_Organizzativaxp Time management method for tasks planning.</p>
	<p>Modello ISA (Insieme Strategico d'Affari) www.academia.edu/10149458/Modello_ISA_Insieme_Strategico_dAffari The fundamental idea that sparked the beginning of this experimental study is extremely simple: give a definition of the business concept that is thorough and precise as it is based on parameters and mathematical models. The begins of Model ASA Model SBS (Strategic Business Set). The introduction of the publication has been translated in: Italian, English, Chinese, German, Arabic, Spanish and Japanese.</p>
	<p>Problem Solving Matematico www.academia.edu/10146012/Problem_Solving_Matematico Mathematical methods for problem solving, with examples of business cases.</p>
	<p>Database Management System - Basi di Dati www.academia.edu/11324642/Database_Management_System_-_Basi_di_Dati DBMS - Database Management System are computer software applications that interact with the user, other applications, and the database itself to capture and analyze data.</p>
	<p>Petri Nets - Business Processes www.academia.edu/10599323/Modellizzazione_dei_processi_-_Rete_di_Petri A Petri net is one of several mathematical modeling languages for the description of distributed systems</p>
	<p>EVA (Economic Value Added) www.academia.edu/9990509/EVA_-_Economic_Value_Added Method of calculation of the parameter EVA</p>
